

🟡 CALENDAR · 30 DAYS · LINKEDIN + X · 10 HOOKS

30-Day Founder *Content* Calendar

Thirty prompts that alternate between LinkedIn and X, built around what founders can write better than anyone else: lessons, opinions with evidence, customer language and the work behind the product. Fill in a line under each prompt, batch on Sunday, post on weekdays.

GROUND RULES

1. Write as a person, not as the company page. One idea per post.
2. The first line is the post. If someone reads only that line, did they learn something?
3. Spend as long replying to others as posting. On both platforms, comments are distribution.
4. Never post a number, customer name or screenshot without permission and a second pair of eyes.

BEST FOR

Founders of Web3, AI and security companies building in public

TIME

90 minutes a week to batch, 20 minutes a day to reply

CADENCE

LinkedIn 3 to 4 times a week, X daily (posts or replies)

DAYS 1 TO 15

The calendar

Day 01

LinkedIn

ORIGIN STORY

The moment you decided to start the company. What did you see that others missed? End with who you are building for.

Day 02

X

HOT TAKE

One belief most people in your category hold that you think is wrong. One sentence, then two lines of evidence.

Day 03

LinkedIn

LESSON

A mistake from your first year. What it cost, what you changed, what you would tell a founder six months behind you.

Day 04

X

THREAD

Explain how your product works in 5 to 7 posts, one concept each. Use one diagram or screenshot.

Day 05

LinkedIn

CUSTOMER VOICE

Quote a customer's exact words about their problem (with permission). What does that sentence tell you about the market?

Day 06

X

BEHIND THE SCENES

A photo or screenshot of something unglamorous you did this week and why it mattered.

Day 07

LinkedIn

WEEKLY RECAP

Three things you learned this week from customers, investors or the product. One line each.

Day 08

LinkedIn

MYTH VS REALITY

Pick a common myth in your space. State it, then show what you have actually seen.

Day 09

X

REPLY DAY

No new post. Write 15 thoughtful replies to people your buyers follow. Add a real point each time.

Day 10

LinkedIn

HOW-TO

A step-by-step guide to one task your ICP does weekly. Five steps, specific tools, no pitch.

Day 11

X

NUMBERS

Share one metric you are comfortable publishing and what is behind it, good or bad.

Day 12

LinkedIn

FAILURE

Something you tried that did not work: a channel, a feature, a hire profile. What you replaced it with.

Day 13

X

INDUSTRY NEWS

React to this week's biggest story in your category with the angle nobody else mentioned.

Day 14

LinkedIn

TWO-WEEK RECAP

What changed in your thinking over the last two weeks? Name the conversation that changed it.

Day 15

LinkedIn

FRAMEWORK

A simple model you use to make a recurring decision (2x2, checklist, rule of thumb). Draw it.

DAYS 16 TO 30

The calendar

Day 16

X

QUESTION

Ask your audience a specific question you genuinely want answered. Reply to every response.

Day 17

LinkedIn

TEAM SPOTLIGHT

Introduce one teammate through a problem they solved, not their job title.

Day 18

X

TEARDOWN

Break down a great launch, landing page or campaign in your space. What worked and why.

Day 19

LinkedIn

CONTRARIAN DATA

A data point (yours or public, cited) that contradicts conventional wisdom. What should people do differently?

Day 20

X

TOOL STACK

The tools you use for one workflow, and the one you dropped. Honest, no affiliate links.

Day 21

LinkedIn

WEEKLY RECAP

One win, one loss, one open question from the week.

Day 22

X

PREDICTION

One specific, falsifiable prediction for your category in the next 12 months. Put a date on it.

Day 23

LinkedIn

CUSTOMER STORY

Before and after for one customer: their situation, what they tried, what changed. With permission.

Day 24

X

EXPLAINER

Define one term your buyers misuse. Plain English, one example, one common misconception.

Day 25

LinkedIn

HIRING OR CULTURE

How you make one decision as a team (hiring bar, shipping rule, meeting rule) and why.

Day 26

X

BEHIND THE BUILD

A short video or GIF of a feature in progress. What you are unsure about. Ask for feedback.

Day 27

LinkedIn

LONG-FORM

Turn your best-performing post this month into a 600-word article or carousel with more detail.

Day 28

X

ASK ME ANYTHING

Open the floor: 'Building X for Y. Ask me anything about Z for the next two hours.'

Day 29

LinkedIn

MONTH RECAP

What 30 days of posting taught you: the post that worked, the one that flopped, what you will change.

Day 30

X

PLAN AHEAD

Share what you are shipping or exploring next month. Invite people to follow along.

HOOKS

10 hook formulas

A hook is a promise. It earns the click to "see more" only if the post pays it off. Fill the brackets with something specific to you.

#	FORMULA	SHAPE
1	The specific number	"We talked to [N] [buyers] last month. [N] said the same thing."
2	The confession	"I was wrong about [belief] for [time]. This changed my mind."
3	The contrarian line	"[Common advice] is costing [audience] [outcome]."
4	The before and after	"[Time] ago we [old way]. Now we [new way]. The difference: [one thing]."
5	The direct promise	"How to [specific outcome] without [common pain], in [N] steps."
6	The overheard quote	"A [title] told me: '[exact quote]'. They are right, and here is what it means."
7	The cost	"This mistake cost us [time / money / customer]."
8	The list with a twist	"[N] things I check before [decision]. Number [N] is the one people skip."
9	The question	"Why do [audience] still [behaviour] when [better option] exists?"
10	The status update	"Day [N] of [building / launching X]. What surprised me this week:"

ROUTINE

The weekly batching routine

SUNDAY OR MONDAY · 90 MINUTES

- ☐ **15 min:** Capture raw material. Scan the week's customer calls, Slack threads, support tickets and notes. List 10 moments worth sharing.
- ☐ **15 min:** Match each moment to a calendar prompt and a hook formula.
- ☐ **45 min:** Write first drafts for the week. Speak them into a voice memo first if writing is slow.
- ☐ **10 min:** Edit: cut the first sentence if it is throat-clearing, cut adjectives, add one specific number or name.
- ☐ **5 min:** Schedule. LinkedIn in your buyers' morning, X when your audience is online.

EVERY WEEKDAY · 20 MINUTES

- ☐ Reply to every comment on your posts in the first hour.
- ☐ Leave 5 substantive comments on posts by buyers, partners or reporters in your space.
- ☐ Save one idea for next week's batch in a single notes file.

FRIDAY · 10 MINUTES

- ☐ Note which post started the most conversations (not likes). Do more of that format.
- ☐ Log inbound DMs from buyers, investors or press in your CRM.

● NEXT STEP

Want a senior operator *on your launch?*

Templates get you organised. Coverage, citations and pipeline come from judgement: which angle a journalist will actually take, which channel deserves the next dollar, and what to cut.

Book a 30-minute teardown. Bring your launch plan, your positioning or your last campaign and leave with a prioritised list of fixes.
